Foreword

The Arizona State and County Abstract of the Assessment Roll is published annually in April of each year pursuant to Arizona Revised Statutes Section 42-15156. It provides the user with summary valuation results of the assessment process in detailed abstract form.

Many individuals assisted in the annual preparation of this publication. Particular acknowledgment is given to the County Assessors and their staffs and to the employees of the Department of Revenue's Property Tax Division for their dedicated efforts in assisting with the publication of this Abstract.

The 2012 edition summarizes, in abstract form, the full cash and limited property valuation bases for the state and each county, city/town, school district, and community college district. The full cash valuation base for fire districts is also included. For ease of viewing, the layout displays the full cash and limited property values for each entity together. Please refer to the introduction section for further explanation and information relative to the 2012 edition.

INTRODUCTION

Since 1980, Arizona has operated under two distinct valuation bases for levying ad valorem property tax. Every property has two values, referred to as the "limited" (primary) value and the "full cash" (secondary) value.

Limited (Primary) Value

The limited property value can equal but cannot exceed the full cash value of a property. Limited property valuations are derived on an individual parcel basis by using one of the following methods:

(a) For parcels in existence in the previous year that did not undergo modification through construction, destruction, split, assemblage or change in use, limited values are established at the previous year limited property value increased by either 10% or 25% of the difference between the previous year limited property value and the current full cash value, whichever is greater.

(b) For parcels that were subject to modification through construction, destruction, or change in use, and for new parcels, including those that were the result of a split or assemblage, limited values are established by applying a ratio of full cash to limited property values of existing properties of the same use or legal classification.

The limited and full cash values of personal property (except mobile homes) and most centrally valued property are the same.

Taxes levied against primary net assessed values are referred to as PRIMARY TAXES. Tax dollars generated are used for the maintenance and operation of counties, cities/towns, school districts and community college districts.

Full Cash (Secondary) Value

Full cash value means the value determined as prescribed by statute. If no statutory method is prescribed, full cash value is synonymous with market value. Taxes levied against secondary net assessed values are referred to as SECONDARY TAXES. Tax dollars generated are used for debt retirement, voter-approved budget overrides, and the maintenance and operation of special service districts such as sanitary, fire, and road improvement districts.

INTRODUCTION (continued)

The valuation information displayed in this publication contains both limited and full cash composite valuations for:

(a) Centrally (State) valued property, both real and personal, (utilities, mines, and railroads, etc.)

(b) Locally assessed property, both real and personal.

Abstract information regarding locally assessed property values or parcel counts can be obtained by contacting the local County Assessors' offices.

Abstract information regarding centrally valued property or additional copies of this abstract publication can be obtained by contacting:
