Foreword

The Arizona State and County Abstract of the Assessment Roll is published annually in April of each year pursuant to Arizona Revised Statutes Section 42-15156. It provides the user with summary valuation results of the assessment process in detailed abstract form.

Many individuals assisted in the annual preparation of this publication. Particular acknowledgment is given to the County Assessors and their staffs and to the employees of the Department of Revenue's Property Tax Division for their dedicated efforts in assisting with the publication of this Abstract.

The 2016 edition summarizes, in abstract form, the full cash and limited property valuation bases for the state and each county, city/town, school district, community college district, and fire districts. For ease of viewing, the layout displays the limited and full cash property values for each entity together. Please refer to the introduction section for further explanation and information relative to the 2016 edition.

INTRODUCTION

Since 1980, Arizona has operated under two distinct valuation bases for levying ad valorem property tax. Every property has two values, referred to as the "limited" (primary) value and the "full cash" (secondary) value. On November 6, 2012 voters approved Proposition 117, an amendment to the Arizona Constitution. Beginning in Tax Year 2015, both primary and secondary taxes are levied against the limited (primary) value.

Limited (Primary) Value

The limited property value can equal but cannot exceed the full cash value of a property. Limited property valuations are derived on an individual parcel basis by using one of the following methods:

(a) For parcels in existence in the previous year that did not undergo modification through construction, destruction, split, assemblage or change in use, limited values are established at the previous year limited property value and cannot increase by more than 5%.

(b) For parcels that were subject to modification through construction, destruction, or change in use, and for new parcels, including those that were the result of a split or assemblage, limited values are established by applying a ratio of full cash to limited property values of existing properties of the same use or legal classification.

The limited and full cash values of personal property (except mobile homes) and most centrally valued property are the same.

All taxes are levied against the primary net assessed value. Primary taxes are tax dollars generated and used for the maintenance and operation of counties, cities/towns, school districts and community college districts. Secondary taxes are tax dollars generated and used for debt retirement, voter-approved budget overrides, and the maintenance and operation of special service districts such as sanitary, fire, and road improvement districts.

Full Cash (Secondary) Value

Full cash value means the value determined as prescribed by statute. If no statutory method is prescribed, full cash value is synonymous with market value.

INTRODUCTION (continued)

The valuation information displayed in this publication contains both limited and full cash composite valuations for:

(a) Centrally (State) valued property, both real and personal, (utilities, mines, and railroads, etc.)

(b) Locally assessed property, both real and personal.

Abstract information regarding locally assessed property values or parcel counts can be obtained by contacting the local County Assessors' offices.

Abstract information regarding centrally valued property or additional copies of this abstract publication can be obtained by contacting:
