Question of the Day: How can I resume some daily activities as safely as possible? (Source: Centers for Disease Control and Prevention)

- In general, the more closely you interact with others and the longer that interaction, the higher the risk of COVID-19 spread. So, think about:
- How many people will you interact with?
 - Interacting with more people raises your risk.
 - Being in a group with people who aren't social distancing or wearing cloth face coverings increases your risk.
 - Engaging with new people (e.g., those who don't live with you) also raises your risk.
 - Some people have the virus and don't have any symptoms, and it is not yet known how often people without symptoms can transmit the virus to others.
- Can you keep 6 feet of space between you and others? Will you be outdoors or indoors?
 - The closer you are to other people who may be infected, the greater your risk of getting sick.
 - Keeping distance from other people is especially important for people who are at higher risk for severe illness, such as older adults and those with underlying medical conditions.
 - Indoor spaces are more risky than outdoor spaces where it might be harder to keep people apart and there's less ventilation.
- What's the length of time that you will be interacting with people?
 - Spending more time with people who may be infected increases your risk of becoming infected.
 - Spending more time with people increases their risk of becoming infected if there is any chance that you may already be infected.

Yuma County health officials confirm "community spread" of COVID-19 throughout Yuma County. We encourage all residents to take the necessary precautions including

physical distancing and staying home if you are sick. Remember to:

- Wash your hands often with soap and water for 20 seconds.
- Avoid touching your face, especially your eyes, nose, and mouth.
- Avoid people who are sick, and avoid groups of 10 people or more.
- Clean and disinfect frequently-touched surfaces like light switches, door knobs, electronic devices, etc.
- Stay home if you are sick so you do not expose others.
- Practice physical distancing, staying 6 feet away from others.
- Cover your mouth and nose with a cloth face cover when around others.

Marine Corps Air Station Yuma

Effective April 6, 2020 and until further notice the Trusted Traveler Program is cancelled. This is an additional safety measure that #MCASYuma is taking in order to help stop the spread of #COVID19.

What this means is that essential personnel that do not have common access card (CAC) and Department of Defense (DOD) identification cards are not authorized to come aboard the base without going to the Pass and Registration office and obtaining a base access pass. Essential personnel may obtain base access by providing the appropriate paperwork to the Pass and Registration Office during working hours.

ALL VISITORS will be required to provide justification for needing access to the installation and will not be granted access to the base simply because they know someone that has a CAC or DOD identification card who will be sponsoring/escorting them aboard the base.

As of April 6, 2020, sponsoring a visitor aboard MCAS Yuma that does not have a CAC or DOD identification card is strictly prohibited unless approved at the Pass and Registration Office.

YUMA PROVING GROUND

Although certain access restrictions directed by the Department of the Army are in place, Yuma Proving Ground's essential test mission in support of Army modernization priorities continues. Access to Yuma Proving Ground is currently restricted to the following:

- *YPG residents, including Travel Camp residents
- * YPG employees
- * Civilian contractors who work at YPG

* Other personnel who come to YPG for an authorized purpose (including personnel on official orders to YPG, DoD retirees/ID card holders, and delivery drivers)

PUBLIC is urged to follow on [FACEBOOK](#) & [TWITTER](#) as well as sign up for [Yuma County eNOTIFICATIONS](#)
