**Question of the Day: How do I know if I need to be in isolation or quarantine?  
(Source: Centers for Disease Control and Prevention)**

- If you feel healthy but recently had close contact with a person with COVID-19:
  - Stay Home and Monitor Your Health (Quarantine)
    - Stay home until 14 days after your last exposure.
    - Check your temperature twice a day and watch for symptoms of COVID-19.
    - If possible, stay away from people who are at higher-risk for getting very sick from COVID-19.
- If you have been diagnosed with COVID-19, are awaiting test results, or have a cough, fever, shortness of breath, or other symptoms of COVID-19:
  - Isolate Yourself from Others (Isolation)
    - Stay home until it is safe to be around others.
    - If you live with others, stay in a specific “sick room” or area and away from other people or animals, including pets. Use a separate bathroom, if available.
    - Read important information about caring for yourself or someone else who is sick, including when it’s safe to end home isolation.
- If you have been around someone who was identified as a close contact to a person with COVID-19, you should closely monitor yourself for any [symptoms of COVID-19](#). You do not need to self-quarantine.
- For COVID-19, a close contact is defined as anyone who was within 6 feet of an infected person for at least 15 minutes starting from 48 hours before the person began feeling sick until the time the patient was isolated.

Yuma County health officials confirm “community spread” of COVID-19 throughout Yuma County. We encourage all residents to take the necessary precautions including physical distancing and staying home if you are sick. Remember to:

- Wash your hands often with soap and water for 20 seconds.
- Avoid touching your face, especially your eyes, nose, and mouth.

- Avoid people who are sick, and avoid groups of 10 people or more.
- Clean and disinfect frequently-touched surfaces like light switches, door knobs, electronic devices, etc.
- Stay home if you are sick so you do not expose others.
- Practice physical distancing, staying 6 feet away from others.
- Cover your mouth and nose with a cloth face cover when around others.

### **Marine Corps Air Station Yuma**

Effective April 6, 2020 and until further notice the Trusted Traveler Program is cancelled. This is an additional safety measure that #MCASYuma is taking in order to help stop the spread of #COVID19.

What this means is that essential personnel that do not have common access card (CAC) and Department of Defense (DOD) identification cards are not authorized to come aboard the base without going to the Pass and Registration office and obtaining a base access pass. Essential personnel may obtain base access by providing the appropriate paperwork to the Pass and Registration Office during working hours.

ALL VISITORS will be required to provide justification for needing access to the installation and will not be granted access to the base simply because they know someone that has a CAC or DOD identification card who will be sponsoring/escorting them aboard the base.

As of April 6, 2020, sponsoring a visitor aboard MCAS Yuma that does not have a CAC or DOD identification card is strictly prohibited unless approved at the Pass and Registration Office.

### **YUMA PROVING GROUND**

Although certain access restrictions directed by the Department of the Army are in place, Yuma Proving Ground's essential test mission in support of Army modernization priorities continues. Access to Yuma Proving Ground is currently restricted to the following:

- \*YPG residents, including Travel Camp residents
- \* YPG employees
- \* Civilian contractors who work at YPG
- \* Other personnel who come to YPG for an authorized purpose (including personnel on official orders to YPG, DoD retirees/ID card holders, and delivery drivers)
