**Question of the Day: We have a new flu vaccine every year with a new strain. Why is it so hard to get a coronavirus vaccine? (Source: John Hopkins Bloomberg School of Public Health)**

- We use the same flu vaccine strategy every year that's been developed over many decades. We know the dose of antigen—the protein—required to cause immunity, and we know basically how to swap in and out the latest strain to use the same system.
- We don't know yet what system will be used to create a COVID vaccine or what vaccine candidates will be safe and not cause side effects. We don't know what will cause the right level of immunity. We are starting from scratch and have a lot to learn.

Look for emergency warning signs for COVID-19. If someone is showing any of these signs, seek emergency medical care immediately.

- Trouble breathing
- Persistent pain or pressure in the chest
- New confusion
- Inability to wake or stay awake
- Bluish lips or face
- \*This list is not all possible symptoms. Please call your medical provider for any other symptoms that are severe or concerning to you.

**HOW YOU can get a flu shot in Yuma County?**

The 2020-2021 Seasonal Influenza Vaccine is now available at the Health District, 2200 W. 28th Street in Yuma. Seasonal flu vaccinations are available for all individuals 6 months of age and older. The cost is \$25.00 for adults and \$10.00 for youth 18 years and younger. Medicare Part B, AHCCCS and Private Insurance are accepted upon presentation of card.

- Avoid touching your face, especially your eyes, nose, and mouth.
- Avoid people who are sick, and avoid groups of 10 people or more.
- Clean and disinfect frequently-touched surfaces like light switches, door knobs, electronic devices, etc.
- Stay home if you are sick so you do not expose others.
- Practice physical distancing, staying 6 feet away from others.
- Cover your mouth and nose with a cloth face cover when around others.

### **Marine Corps Air Station Yuma**

Effective April 6, 2020 and until further notice the Trusted Traveler Program is cancelled. This is an additional safety measure that #MCASYuma is taking in order to help stop the spread of #COVID19.

What this means is that essential personnel that do not have common access card (CAC) and Department of Defense (DOD) identification cards are not authorized to come aboard the base without going to the Pass and Registration office and obtaining a base access pass. Essential personnel may obtain base access by providing the appropriate paperwork to the Pass and Registration Office during working hours.

ALL VISITORS will be required to provide justification for needing access to the installation and will not be granted access to the base simply because they know someone that has a CAC or DOD identification card who will be sponsoring/escorting them aboard the base.

As of April 6, 2020, sponsoring a visitor aboard MCAS Yuma that does not have a CAC or DOD identification card is strictly prohibited unless approved at the Pass and Registration Office.

### **YUMA PROVING GROUND**

Although certain access restrictions directed by the Department of the Army are in place, Yuma Proving Ground's essential test mission in support of Army modernization priorities continues. Access to Yuma Proving Ground is currently restricted to the following:

- \*YPG residents, including Travel Camp residents
