

YUMA COUNTY RECORDER'S OFFICE

PUBLIC NOTICE

Official Historical Records

Starting Monday, October 16, 2023, many official historical documents/records will be not readily available at the Recorder's Office due to the recently awarded contract with KoFile to preserve and image certain historical records. The affected years range from 1864 through 1993.

If you need to obtain an image of any official document recorded between the above listed years, please provide our Office with a specific docket and page number or document number so we can process the request through KoFile.

It could take up to five business to obtain the requested image. Thank you for your patience and understanding.
