

Section Eleven—Housing Element

In 2016, the units of local government in Yuma County formed the Yuma County HOME Consortium (YCHC), providing a mechanism for the community to receive HOME funding from the US Department of Housing and Urban Development. The HOME program was used as a basis to prepare the Housing Market Assessment 2021 study created on April 29, 2021. The Housing Market Assessment 2021 study was done for Yuma County as a whole with specific information for each municipality.

The Housing Market Assessment 2021 study utilizes 2019 population and demographic projections because the study was done prior to the official release of Census 2020 data; however, the data is informative and consistent with 2019 population and demographic projections.

Yuma County determined to utilize the Housing Market Assessment 2021 study as a whole and an intact document to represent the Housing Element for the 2030 Comprehensive Plan. The Housing Market Assessment 2021 study can be found in the following link:
<https://www.yumacountyaz.gov/home/showpublisheddocument/56912>

Yuma County acknowledges and appreciates the Yuma County HOME Consortium and the different units of local government for performing the Housing Market Assessment 2021 study
